# SECTION 1: Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

### Trade name: DAIFREE GA-9750M

**1.2 Relevant identified uses of the substance or mixture and uses advised against:** No further relevant information available.

#### 1.3 Details of the supplier of the safety data sheet Manufacturer/Supplier: DAIKIN INDUSTRIES, LTD. CHEMICALS DIVISION: Umeda Center Bldg. 4-12 Nakazaki-Nishi 2-chome Kita-Ku O

Umeda Center Bldg., 4-12, Nakazaki-Nishi 2-chome, Kita-Ku, Osaka, JAPAN Phone: (+81) 6-6373-4345 Fax: (+81) 6-6373-4281

*Further information obtainable from:* http://www.daikin.com/ *1.4 Emergency telephone number: Japan:* +81-6-6349-7521 *China:* +86-512-5-232-0949, +86-21-34151689 *South Korea:* +82-2-568-1722 *Americas: CHEMTREC* +1-800-424-9300 (Outside US/Canada: +1-703-527-3887) *Europe:* +49-211-179 225-0

# SECTION 2: Hazard identification

#### 2.1 Classification of the substance or mixture Classification according to Regulation (EC) No 1272/2008

Printing date 19.05.2022

\*

Revision: 19.05.2022

Trade name: DAIFREE GA-9750M

5.1 Extinguishing media Suitable extinguishing agents: Alcohol resistant foam Fire-extinguishing powder Dry sand

Printing date 19.05.2022

Trade name: DAIFREE GA-9750M

CO2 For safety reasons unsuitable extinguishing agents: Water with full jet 5.2 Special hazards arising from the substance or mixture: Formation of toxic gases is possible during heating or in case of fire. Receptacle may explode when heated. Extremely flammable; can ignite easily with heat, sparks, fire. 5.3 Advice for firefighters: Remove receptacles from area of fire if possible. **Protective equipment:** Wear fully protective suit. Wear self-contained breathing apparatus and protective suit. Do not inhale explosion gases or combustion gases.

# **SECTION 6:** Accidental release measures

### 6.1 Personal precautions, protective equipment and emergency procedures:

Ensure adequate ventilation before entering the area. Stay on the windward side.

Keep out unauthorized persons.

Wear appropriate protective devices (See Section 8 Exposure Controls/Personal Protection).

Avoid contact with eyes and skin.

Do not swallow the product.

**6.2** Environmental precautions:

Do not allow to enter sewers/surface or ground water.

Prevent seepage into sewage system, workpits and cellars.

### 6.3 Methods and material for containment and cleaning up:

In case of spill a small amount of product, and recovering what was wiped off, use an antistatic tool.

Do not flush with water or aqueous cleansing agents

For a small amount of leakage: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders) or collect in an empty container that can be sealed tightly.

For a small amount of leakage: Use clean anti-static tools when absorbing the product.

For a large amount of leakage: Enclose with banks to avoid outflow. Lead the leakage to a safe place and collect. Remove ignition sources immediately.

Ground all equipment when the product leaks.

There is a danger of explosion. Prepare fire extinguisher in case of emergency.

6.4 Reference to other sections:

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

# **SECTION 7: Handling and storage**

# 7.1 Precautions for safe handling:

Open and handle receptacle with care. Ensure good ventilation/exhaustion at the workplace. Handle with care. Avoid jolting, friction and impact. Do not handle until all safety precautions have been read and understood. Information about fire - and explosion protection: Do not spray onto a naked flame or any incandescent material. Keep ignition sources away - Do not smoke. Protect against electrostatic charges. Pressurised container: protect from sunlight and do not expose to temperatures exceeding 40 °C, i.e. electric lights. Do not pierce or burn, even after use. Use flame proof electric/lighting devices and ventilation equipment. Ground/bond container and receiving equipment. 7.2 Conditions for safe storage, including any incompatibilities: Storage Requirements to be met by storerooms and receptacles: Store in a cool and dry location.

Observe official regulations on storing packagings with pressurised containers.

Keep containers tightly sealed.

Printing date 19.05.2022

Revision: 19.05.2022

Trade name: DAIFREE GA-9750M

Information about storage in one common storage facility:
Store away from oxidising agents.
See section 10 for information on incompatible materials.
Further information about storage conditions:
Store in a cool place. Heat will increase pressure and may lead to the receptacle bursting.
Do not seal receptacle gas tight.
Store in cool, dry conditions in well sealed receptacle.
Protect from heat and direct sunlight.
Store containers in a well ventilated area.
Store locked up.
7.3 Specific end use(s): No further relevant information available.

# SECTION 8: Exposure controls/personal protection

8.1 Control parameters No further information available.

Ingredients with limit values that require monitoring at the workplace:

The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

Additional information: The lists valid during the making were used as basis.

#### 8.2 Exposure controls

Appropriate engineering controls No further data; see item 7. Individual protection measures, such as personal protective equipment General protective and hygienic measures:

Keep away from foodstuffs, beverages and feed.

Store protective clothing separately.

Wash hands before breaks and at the end of work.

Do not eat or drink while working.

Keep away from tobacco products.

### **Respiratory protection:**

Use respiratory protective device with filters for organic and acid gas (or airline respirators in some cases) if formation of toxic gases is possible while the product is heated.

Use respiratory protective device with organic gas cartridge.

### Hand protection

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

Protective gloves

Material of gloves: Synthetic rubber gloves Rubber Penetration time of glove material The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed. Eye/face protection

Safety glasses

Body protection: Protective work clothing

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties General Information Colour: Tran

Information with regard to physical hazard classes	
	N7 / 1º 11

In Not applicable **Explosives** Flammable gases Not applicable Aerosols Extremely flammable aerosol. Pressurised container: May burst if heated.

Partition coefficient n-octanol/water (log value)

Oxidising gases	Not applicable
Gases under pressure	Not applicable
Flammable liquids	Not applicable
Flammable solids	Not applicable
Self-reactive substances and mixtures	Not applicable
Pyrophoric liquids	Not applicable
Pyrophoric solids	Not applicable
Self-heating substances and mixtures	Not applicable
Substances and mixtures, which emit flammal	ble gases
in contact with water	Not applicable
Oxidising liquids	Not applicable
Oxidising solids	Not applicable
Organic peroxides	Not applicable
Corrosive to metals	Not applicable
Desensitised explosives	Not applicable

### SECTION 10: Stability and reactivity

10.1 Reactivity No further relevant information available.

10.2 Chemical stability

Thermal decomposition / conditions to be avoided: To avoid thermal decomposition do not overheat.

10.3 Possibility of hazardous reactions: No dangerous reactions known under normal conditions of use.

10.4 Conditions to avoid: Keep away from heat, sparks, flame, high temperature.

10.5 Incompatible materials: Oxidizing agents

#### Version number 1

Revision: 19.05.2022

Revision: 19.05.2022

Trade name: DAIFREE GA-9750M

10.6 Hazardous decomposition products: Danger of toxic fluorine based pyrolysis products.

# SECTION 11: Toxicological information

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008 Acute toxicity no data LD/LC50 values relevant for classification: No further information available. Skin corrosion/irritation Causes skin irritation. Serious eye damage/irritation No further information available. **Respiratory or skin sensitisation** No further information available. Germ cell mutagenicity Based on available data, the classification criteria are not met. Carcinogenicity No further information available. **Reproductive toxicity** No further information available. STOT-single exposure No further information available. STOT-repeated exposure No further information available. Aspiration hazard May be fatal if swallowed and enters airways. Other information (about experimental toxicology): No further information available. Subacute to chronic toxicity No further information available. 11.2 Information on other hazards Endocrine disrupting properties

None of the ingredients is listed.

# **SECTION 12: Ecological information**

12.1 Toxicity Aquatic toxicity: No further relevant information available. 12.2 Persistence and degradability: No further relevant information available. 12.3 Bioaccumulative potential: No further relevant information available. 12.4 Mobility in soil: No further relevant information available. 12.5 Results of PBT and vPvB assessment **PBT**: No further relevant information available. No further relevant information available. Not applicable. vPvB: No further relevant information available. No further relevant information available. Not applicable. 12.6 Endocrine disrupting properties For information on endocrine disrupting properties see section 11. Ecotoxical effects: no data Remark: Very toxic for fish Additional ecological information: General notes: Danger to drinking water if even extremely small quantities leak into the ground. Also poisonous for fish and plankton in water bodies. Very toxic for aquatic organisms

# SECTION 13: Disposal considerations

### 13.1 Waste treatment methods

#### **Recommendation:**

Must not be disposed together with household garbage. Do not allow product to reach sewage system. Disposal must be made according to official regulations.

#### Uncleaned packaging

Recommendation: Disposal must be made according to official regulations.

Trade name: DAIFREE GA-9750M

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

No further relevant information available. Labelling according to Regulation (EC) No 1272/2008 The product is classified and labelled according to the CLP regulation. Hazard pictograms

### Signal word Danger

Hazard-determining components of labelling:

Isooctane

Octane

### Hazard statements

H222-H229 Extremely flammable aerosol. Pressurised container: May burst if heated.

H315 Causes skin irritation.

H336 May cause drowsiness or dizziness.

H304 May be fatal if swallowed and enters airways.

*H410 Very toxic to aquatic life with long lasting effects.* 

#### **Precautionary statements**

P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

P251 Do not pierce or burn, even after use.

P261 Avoid breathing dust/fume/gas/mist/vapours/spray.

P301+P310 IF SWALLOWED: Immediately call a POISON CENTER/ doctor.

P405 Store locked up.

*P501* Dispose of contents/container in accordance with local/regional/national/international regulations.

Seveso category

*E1 Hazardous to the Aquatic Environment P3a FLAMMABLE AEROSOLS* 

National regulations No further information available.

Other regulations, limitations and prohibitive regulations: 尚未进行化学物质安全性评价 15.2 Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

# **SECTION 16: Other information**

The product is for the industrial use only. We do not guarantee the safety in case the product is used for the other purposes. When using the product for health-care application or food/feed application, consult us in advance. This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.
