Weatherable coating resin
ZEFFLE GK-570

A solvent based paint resin with excellent weather, chemical, and stain resistance. GK-570 is a standard grade of all GK series.

Outline
- ZEFFLE GK-570 is a copolymer of tetrafluoroethylene and vinyl monomer.
  It does not include chlorine which may cause yellowing.
- Excellent weather resistance, corrosion protection, chemical resistance, and dirt removability.
- Gloss and color can be controlled easily.
- Variety of substrate can be chosen due to lower curing temperature.
  Even ambient temperature can be taken by selecting curing agent.
- Good compatibility with wide range of isocyanate curing agent. Melamine can also be used.
- Can be formulated for paint by spray, brush, roller, etc.
- Can be used for versatile purposes.

Handling / Safety information
- Be sure to read the notes on SDS and labels before use.
- This product is intended for general industry, and therefore its adequacy and safety as a raw material for medical purposes cannot be guaranteed.

Package size
- 1kg, 18kg, 200kg
