※Processing condition: Primer ・ 10 min at 60 to 80°C, DAI-EL LATEX ・ 10 min at 280°C
※As there may be cases of ineffective adhesion due to specific types and compositions of synthetic rubber, please conduct tests beforehand.

* The numeric values above are typical and not guaranteed.

Handling method/Safety information
- Be sure to read the notes on SDS and labels before use.
- This product is intended for general industry, and therefore its adequacy and safety as a raw material for medical purposes cannot be guaranteed.
