

# Water-based Primer for Fluoropolymer Coating POLYFLON PTFE ED-1939D21R

TECHNICAL  
DATASHEET

Water-based primer for conductivity and excellent adhesion.

## Introduction

- POLYFLON PTFE ED-1900 grade is a water-based PTFE primer.
- POLYFLON PTFE ED-1939D21R makes a black primer layer displaying conductivity and excellent adhesion to metal substrate.
- It is good for office automation equipments.

## General physical properties

Film appearance	Viscosity [cP]	pH	Solid content [mass%]
Black	130	7	30

\* The numeric values above are typical and not guaranteed.

## Handling method/Safety information

- Be sure to read the notes on SDS and labels before use.
- This product is intended for general industry, and therefore its adequacy and safety as a raw material for medical purposes cannot be guaranteed.
